MANUFACTURER OF THE YEAR

**TRI-WAVE MD**  

# ACHIEVE YOUR BEST SKIN

Dermalux Tri-Wave MD is an award winning, medically certified LED Phototherapy treatment delivering clinically proven light wavelengths to transform the skin without pain or downtime.

**From the first treatment, Tri-Wave MD energises skin cells to restore vitality and calm irritation. A treatment course is recommended for powerful visible and lasting results.**

We believe everyone deserves to achieve their best skin. Discover the benefits of Dermalux as part of your ongoing skin health regime.

## HOW DOES IT WORK?

When clinically proven light wavelengths are applied to the skin, they have a significant impact on how we look, feel and perform. Phototherapy like photosynthesis converts light energy in the same way our bodies use nutrients from food. This in turn supercharges cell function and accelerates our rejuvenation and repair processes.

## WHAT ARE THE BENEFITS?

Dermalux delivers clinically proven Blue, Red and Near Infrared wavelengths to boost collagen production, destroy acne causing bacteria, reduce inflammation, accelerate healing and relieve pain. As the light triggers a whole cascade of cell activating processes, the benefits continue even after the treatment has finished.

## WHAT DOES THE TREATMENT INVOLVE?

Dermalux is a relaxing, pain free experience with proven mood enhancing effects. Enjoy some luxury me-time as your skin absorbs the energising light. Each treatment lasts up to 20 minutes and with no downtime, you can simply get up and glow!

# THE POWER OF LIGHT

MOST CLINICALLY PROVEN WAVELENGTHS

## Dermalux Blue 415nm

Most proven wavelength to destroy acne causing bacteria and reduce inflammation

## Dermalux Red 633nm

Speeds cell renewal, boosts collagen and increases hydration to target ageing and restore vitality

## Dermalux NIR 830nm

Triggers the healing process to calm irritation and accelerate repair and reduce pigmentation

## Dermalux TRI WAVE

Tri-Wave therapy uniquely delivers multi-wavelength treatments for enhanced and accelerated results

# CHOOSE YOUR DERMALUX TREATMENT

Dermalux is an essential part of any skin care programme to optimise treatment results and provides the foundation to achieve and maintain your best skin.

## ACTIVATE

An intensive course of 10 treatments taken in close succession is recommended for optimum cell activation. Supercharge your skin for powerful visible and lasting results. Once completed follow with maintenance treatments.

## BOOST

Individual treatments re-energise cells to instantly revitalise a dull dehydrated complexion, restore luminosity or calm irritation. A perfect boost before a special event or as part of an on-going skin maintenance programme.

## COMBINE

Upgrade your favourite treatments with Dermalux for enhanced and longer lasting results, to reduce inflammation, minimise downtime and accelerate healing. Your Dermalux practitioner will advise you on the best combination for your skin.
